

Mythology bingo

Instructions

1. Divide the class into five (or fewer) groups and give each group one of the five bingo cards below.
2. Explain to the students you will give them clues and they must cross off the answers on their bingo cards – make sure they understand that they will not have all of the answers.
3. The first group to cross off all the names on their bingo card wins!

Note 1: If the students have not met some of the figures below, it would be a good idea to note these on the blackboard as you go along and speak briefly about them.

Note 2: You do not need to give the clues in the order they are below – mix them up and tick them off as you go!
